East Shore Sojourn

Bv Ron Welwood

n a beautiful, sunny Monday (May 14th), 32 LiRers cruised the waters of Kootenay Lake aboard MV Osprey 2000 — the group reassembled at the Yasodhara Ashram at Walkers Landing and later moved on to the Gray Creek Community Hall.

A tour of the Ashram property culminated in an uplifting experience within the *Temple of Light* — a stunning, architectural wonder. The creation of this outstanding structure was an incredible challenge for both designers and builders who incorporated the concept of a lotus' eight petals spiralling upwards to join around a skylight at the apex. This unique structure has received accolades for its outstanding acoustics. A superb, vegetarian lunch consumed in silence completed this Ashram venture.

In the afternoon we drove south along Crawford Bay to the Gray Creek Hall where we were the guests of the Gray Creek Historical Society. The century-old log structure, Canada's oldest continuously serving community hall, had also served as Gray Creek's elementary school. For almost an hour longtime resident and historian, Tom

Lymbery, without script, entertained his guests with anecdotes relating to the East Shore. Afterward many LiR members visited Lymbery's legendary Gray Creek Store (1913) before returning to the Kootenay Bay ferry terminal.

Seniors Transportation in the West Kootenays

By Aira Windtree

You will want to remember Dana Burgess. She's a veritable storehouse of information on senior's transportation needs for getting around the Kootenays. Dana is the West Kootenay Seniors Transportation Co-ordinator. She helps seniors find transportation solutions so that they can more fully participate in their communities. "We have a fantastic rural transit system. It gets folks through the corridor from Trail to Argenta. But, if you put one factor of mobility into the mix, which many seniors have challenges with, that system becomes impossible for seniors to use.", says Dana. That's where her work begins. The Seniors Transportation program is a part of the Nelson CARES Age Friendly Initiative, which is focused on enhancing the health, independence and community inclusion of Kootenay seniors.

Dana can provide information on Transit, HandyDART, Rideshare, Carshare and

the Volunteer Driver Program. She also travels throughout the West Kootenays and will meet with seniors in their own homes and communities. She is a part of a working group, meeting 6 times per year which is focused on advocating locally and provincially for improved transportation services for seniors. Contact Dana for information, appointments or home visits -250-352-2708, or check out dana@nelsoncares.ca and info@kootenayseniors.ca. Her office is located at 709 Vernon Street. Call before you come as Dana is often travelling in the Kootenays.

Nelson's Learning in Retirement offers our 50+ community the opportunity to explore old and new interests in a relaxed and stimulating learning environment. LiR members work in partnership with Community Education and Workplace Training at Selkirk College (Nelson) to develop and provide a diverse program of speakers, courses and other activities for its members.

2018/19 LIR BOARD BIOS

Sheila Kerr

I have a degree in Home Economics from UBC and have been a 4H club leader,TV cooking show hostess, Antique and Decorating store owner and renovator of many buildings. LiR has so many curious members that it keeps us on our toes finding and developing programs and outings to interest you. My rule of thumb is that if it tweaks my interest, chances are you will also enjoy yourself and make new friends along the way.

Grace Devaux

My first LiR course was on memoir writing in 2011. Since then I have had to limit my choices from the amazing variety offered. Who knew I could have so much pleasure in painting or writing poetry. This is my sixth year on the board and I am thrilled to celebrate the 10th Anniversary of LIR for the exciting opportunities in lifelong learning it continues to offer our community.

Kathy Hrabluk

Originally from Mississauga ON I've lived in several provinces along with Phoenix Az. My husband Ken and I moved to the beautiful Kootenays last summer and quickly became enthusiastic members of LiR. As a retired educator and lifelong learner I recognize the value and inherent asset of LiR to the vibrant local community. As a new Board member I look forward to supporting the good work of LiR and the well-deserved upcoming 10th anniversary celebration.

Richard Peppinck

I arrived to Nelson in September of 2016, after having a successful career as a teacher, Vice-Principal, Principal and college instructor to students preparing to become teachers. I was introduced to LiR last September. LiR is an extension of relationship building and I have enjoyed the many opportunities to make connections with people. LiR will be celebrating its Tenth Anniversary this year and I am privileged to share in the governance as a board member.

Margaret Stegman

I'm a retired elementary teacher, originally from New Zealand but a happy Nelson resident since 1978. I've been a member of LiR for three years, joined the Programming Committee after the first year, then the Board. On hearing that LiR's 10th anniversary is imminent, my immediate thought was "I wish I could have retired earlier!"

Pat Gibson

This 10th anniversary year will be a year of celebration and of reflection – time to revisit the vision and values of LiR, the changes that have occurred during the past few years, and to ask if we, the Nelson LiR community, are continuing to meet the objectives written by the 'founding four'. It will be a time, too, to talk about the future, to picture what LiR will look like and what we will accomplish in the next five to ten years.

Sandra Tozer

I joined Learning In Retirement five years ago shortly after I retired. In the second year I became a member of the Program Committee and joined the Board later that year. I look forward to our 10th anniversary and think we should celebrate all the people who made LiR possible. It was their hard work that made it possible for all of us to enjoy the Friday morning speakers, courses, field trips and friendships.

Christine Schmidt, Selkirk College Liaison to LIR

The LiR experience brings growth, friendships, inspirations and memories. Happy 10 year Anniversary LiR.

Heather Myers

I have thoroughly enjoyed participating in LiR's talks and events, and am now happy to serve on the Board and support an excellent organization. I love the variety of interests and experiences represented by LiR and its members, and their enthusiasm for learning new things.

Christine Boyd

My background is in health care and also marketing. As a result I am always interested in our health care professionals and their innovative methods for supporting us. I also appreciate good local promotion, as that is the key to being noticed. I am delighted to be part of LiR and especially at this time, with the tenth anniversary on the horizon.

Jack Harrison

I was born and bred in Montreal in a multi-lingual and multi-cultural working class neighborhood. When I turned 20 I traveled the world for a couple of years and then returned to Montreal. For the next four decades I worked for General Electric mostly in the area of large rotating equipment. I moved to Nelson two years ago and reinvented my life. On my third day here I joined LiR. I am honoured to be asked on the board and to contribute back to a community that has given me so much joy, wisdom and friends.

THE VIEW FROM THE CHAIR

By Pat Gibson

WHAT A YEAR IT WILL BE!

f you have faced and met the challenges of this past summer – heat, water restrictions, road construction, tourist influx, congested traffic conditions, family and friend visits – then you are READY for the challenges of another Learning in Retirement (LiR) year – another outstanding calendar of programs and courses - and a celebration of the decision made with determination, intelligence, and passion 10 years ago, to form this group dedicated to lifelong learning and to the value of elders in the community.

The traditional symbol of 10th anniversaries is tin; it is meant to represent toughness, durability, and devotion in a relationship – sounds like the characteristics of LiR!

The Program Committee has developed a comprehensive and thoughtful Fall program of courses and Friday sessions — it is uncanny

how they can zero in on our most important learning needs at this time in our lives – the courses are varied, interesting, and will contribute to the quality of everyday living for each of us. Again, a reminder to everyone, that if you sign up for a course, please be responsible in attending and respecting the arduous work of the volunteer instructors.

LiR has been approached by two additional organizations to participate in intergenerational projects in the Nelson area; more information will be available this fall.

The LiR 10th Anniversary Celebration planning committee is meeting to begin brainstorming how best to recognize the accomplishments of the past 10 years, to acknowledge LiR's progress and current status, and to set goals for the next 5-10 years! The committee will be asking for members' ideas as well.

I hope for all to have an enjoyable year of friendship, learning, personal growth, and celebration!

Sister in Japan: Renewing the Nelson Izushi Friendship

By Richard Peppinck

We were greeted to this presentation by learning how to say good morning in Japanese. *Ohayo Gozaimasu* and welcome to this review.....This informative and educational presentation by members of the Nelson Izu-shi Society shared the history and their experiences honouring the 30 years of the friendship between Nelson and Izu-shi, our sister city in Japan. Following the principles of the Intergenerational Project they encourage sending a multigenerational delegation for cultural exchange visits. This union between the two cities has resulted in the creation of and the continued maintenance of the 'Friendship Garden' in Cottonwood Falls Park here in Nelson. To celebrate the 30 years of friendship a new gate was built with much community support. In Izu-shi, they have built a complete Baker Street Boutique in Niji no Sato, a local theme park.

Charles is interested in spiritual topics and this interest is a foundation for the course. Topical conversation and social talk is very important in this course, all set within the broad parameters of historical and spiritual exploration. There are no required readings nor student presentations in this course.

From 750-word essays to six word stories, let's play with this provocative genre of literary expression. Using examples, prompts and dialogue we will explore this perfect medium for short pieces of memoir and quick flights of fancy. In In Short Bernard Cooper suggests that short nonfiction requires "an alertness to detail, a quickening of the senses, a focusing of the literary lens...until one has magnified some small aspect of what it means to be human." Welcoming all levels of experience, this class focusses on the pleasure of writing and positive support in a non-judgemental, humorous atmosphere.

Lindy's first poem was published in the The Rocky Fork Enterprise (Gahanna, Öhio weekly) when she was 8 yrs. old and she's been scribbling ever since. Lindy's passion for Flash was ignited by Rayya Liebich's classes at Oxygen Art and with neighbor Rayya's blessing, Lindy looks forward to sharing this form with you. She received an MA in Transformative Art from JFKU in Berkeley, CA, and has taught art (and computers) to folks of all ages in a strange variety of venues.

Memories of Africa

by Grace Devaux

What an amazing collection of speakers - all passionate about their memories of Africal

Marylee Banyard spoke of the history of African slavery and the work her parents did while she was growing up in Northern Rhodesia. In a second session, arriving from the hospital in a wheel chair, she told how she had started a project at the women's centre on the family farm with her mother's

Mather and a vigin

sewing scraps and how they made a quilt for an exhibition. With support from Nelson people, quilters and Rotary,

Marylee has visited yearly for fourteen years to encourage the local women to continue this sewing project. **Marisa van Der Vyver**, as a young woman was raised in the centre of Africa, trained as a doctor in South Africa, worked and travelled in Africa and is now living in Canada. **Betty Hohn** as a newly graduated nurse went courageously to Ethiopia in 1974 after the famine to work in the bush clinics, then 43 years later in 2017 went back to visit. **Fannuel Nsingo** grew up loving the animals in Zimbabwe and now leads tours that reflect his interest in ecotourism and conservation of endangered species. **Timothy Jackson** also leads tours in Kenya and believes that to understand a culture you need to spend time to experience and appreciate their lifestyle. Each tribe is different. Some have a subsistence living and

body cutting is still an accepted practice, while other tribes and countries are well educated and leaders of change. What an enlightening experience; our image of Africa was changed by the fascinating stories we heard.

Wines of South Africa

by Richard Peppinck

When this stimulating full-bodied wine-tasting class came to a conclusion I thought we should dance out of the classroom singing, "Sippity doo dah, Sippity yay!". But I get ahead of myself. Let's just say the scheduled two hour session was so filled with curiosity it turned into three.

As we entered the classroom the tables were set with two wine glasses per seat, with tasting sheets, a map and fact sheets on South Africa wines. These materials were excellent props. The true translator and wizard behind this adventure was our instructor, Deb Smith, whose wealth of knowledge and seasoned skills as a teacher, were balanced out with a sassy and spirited delivery.

Wine tasting at times might feel like learning a new language that gets in the way of simply enjoying a glass of Chenin Blanc. Deb introduced us to the art of paying attention to the full story of creating and tasting wine. She explained that the wine lingo doesn't have to confuse but instead can reveal a better understanding of a varietal like a Pinotage. I have to admit that all through the session I believed that we would be inducted into some mysterious ritual like a "secret handshake" that would let us into some special wine club. We were simply learning how to pick, describe and appreciate a nice bottle of wine. We were offered four South African wines that had been chosen by Deb. She had made sure that the wines had a good price point (under \$20) and could be found at our local wine shops. The next three hours were filled with learning about aromas and tastes of these specific varietals of the wine regions of South Africa. An example was learning about the Chenin Blanc grape first planted in the Southern Cape in 1655.

In most wine tastings, the processes of swirling, sniffing, sipping and spitting are common. Like I said, we weren't entering some special club. We were here to enjoy an afternoon glass of wine with friends. So spitting was left out. As the class was coming to an end someone in the group asked Deb what wine would she pick on a regular basis. After a pause she replied, "What are we looking for in the day?" It was certain we had found what we were looking for on this day.

Richard Peppinck is presenting Deb Smith, a volunteer appreciation award for the many enjoyable and informative classes on wines she has offered to LiR.
