Education: MA Transformative Art, John F. Kennedy University, May 2003

BS Art Education, Northern Arizona University, May 1997

Statement:

My life has been a balance between teaching and creating. Teaching has grown to become as great a passion for me as creating. I have strong educational, artistic, technological and business experience to offer, plus lots of positive energy. I make mixed media pieces; artist books, installations and sculpture. I often use handmade paper which reflects the nature-based, temporal connection of much of my work. I write - mostly poetry and short essays; and long to write a great, new thought transformative novel.

It has been my experience that art and creativity heal, illumine and transform. I believe that creativity is a process that greatly accelerates self-actualization and facilitates unfolding consciousness. Our world needs the creative problem solving abilities of people with a healing soul and awakened consciousness. And It's Fun!
